

## **The unfortunate news regarding Event #1 results.**

As many of you will now know from our email we were not able to provide any results for the first Beach Series event on Tuesday 5<sup>th</sup> November.

Right before the kids' race started our timing system unexpectedly crashed. After not being able to get the timing system working again we moved to using our backup timing system. This is where results are stored in the timing box, with the aim that we extract these after the event to produce the results. Upon closure of the timing system last night it became apparent that the data stored in the timing box has become corrupted and is unfortunately not usable. We worked with files throughout the night but were not able to pull through the results.

This is the first time in the Beach Series 15-year history, and the timing company's history that this double fault has occurred. We are unbelievably sorry that this has occurred and that there are no results from your first event.

As a significant portion of entrants do not know their approximate finish time and we do not want to disadvantage any of those who participated, the plan is to keep the results and series points for Week 1 completely empty. We will then be giving 'double points' at the last event of the season (Tuesday 24<sup>th</sup> March) to all of the participants who took part in Week 1. This ensures that everyone's full allocation of points are showing, come end of season prizegiving and medals. We have chosen the final event of the season as your double points event as we assume most people will be attending to receive the first ever Beach Series finisher medals.

We know this is a far from perfect solution and we are very upset that we've started the 15<sup>th</sup> Beach Series season this way. To put your mind at ease, we can confirm that this issue has been completely resolved and though we have been told it unnecessary, as an extra precaution we have arranged for the timing company to be onsite at Event #2 to ensure everything is running as it should.

Can you please Search your name (top right corner of this PDF) to check that you are correctly showing as having participated last night so that you will be allocated double points at the final event of the season. If your name is on this list and you didn't take part in last night's event please email [info@beachseries.co.nz](mailto:info@beachseries.co.nz).
